

## The Bennett Centre

Stoke-on-Trent

**Status:**  
Completed

**Value:**  
£819,000

**Client:**  
North Staffordshire Combined NHS Trust

**Description:**  
We were involved in the detail design and construction of a resource centre providing services for mentally ill adults living in the community on an existing North Staffordshire Healthcare Trust site.

The centre provides 40 day places, including 8 in-patients, for patients which will also act as a base for community staff involved in their treatment. All facilities are also fully accessible to the disabled.

The centre also has an out patient facility with a restricted drop in service for patients requiring occasional assistance. Out of hours the centre is available for other organisations to use the facilities.
