

Fibbersley Park Primary School

Willenhall, Walsall

Status:

Completed June 2007

Value:

£4.5 million

Client:

Walsall Metropolitan Borough Council

Description:

Fibbersley Park Primary School is a new two form entry primary school with Nursery and Reception classrooms and an adjoining Child Care Centre.

In total the school is designed for 420 pupils plus the Nursery and Child Care Centre and incorporates additional Practical and IT Suites.

All Classrooms are naturally lit and ventilated to comply with BB 93 101. The school is designed on a North - South axis to enable all classrooms and the Child Centre to face either East or West and this together with a generous roof over hang presents excess solar gain.

All rainwater is recycled via a grey water storage tank and reused in the toilets.

The school recently won a Construction Excellence award.
