

## H & R Johnson Tiles Ltd

Tunstall, Stoke-on-Trent

**Status:**  
Complete

**Value:**  
£40 million

**Client:**  
H&R Johnson Tiles Ltd

### Description:

We were commissioned to design a new development for H&R Johnson Tiles Ltd at their Valley Works in Tunstall. The scheme consolidates their manufacturing process on one site.

The project includes a new 52,000sqft warehouse, with an extension to the raw material, preparation and production areas, and a two storey 26,000sqft office area. New meeting spaces have been designed into the main spiral stair with a new display area at ground floor level.

The brief called for a totally column free production area at ground floor so the first floor area is suspended from the roof trusses and it has a span of 42m.
