

## New Victoria Theatre Activity Centre

Newcastle-under-Lyme

**Status:**

Completed March 2008

**Value:**

£900,000

**Client:**

New Victoria Theatre

**Description:**

Works have now completed on the Activity Centre which involves the construction of a separate building next to the New Victoria Theatre.

The building is to be used for costume and props storage, and importantly includes a new activity / space at 1st floor level which is a communal area to be used either as a rehearsal space, lecture room, workshop area and educational teaching area.

This new activity space replicates identically the size and acoustic performance of the existing theatre's acting area.
